

MATHEMATICS

Practice Questions & Exam Papers

Revision Calendar

You could use the calendar below to plan revision for your final exam. There are 15 topics, so covering two each week would require about an 8-week revision programme in addition to time that you should spend doing practice papers and SQA past papers. The exam is in May, so starting in February would give you time.

Topic	Date	Questions completed (✓)	Green light for confidence! (✓)
1. Functions			
2. Graphs of Functions			
3. Quadratics			
4. Polynomials			
5. Recurrence Relations			
6. Logarithms and Exponentials			
7. The Straight Line			
8. The Circle			
9. Vectors			
10. Trigonometric Formulae and Equations			
11. The Wave Function			
12. Differentiation			
13. Applications of Differentiation			
14. Integration			
15. Applications of Integration			

Good luck!
